Bass Pro Shops® has taken these steps following announcements from a supplier that the products were manufactured with peanut products from Peanut Corporation of America in Blakely, Georgia, which has been identified as the source of peanut products contaminated with Salmonella.

Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis. For more information on Salmonella, please visit the Centers for Disease Control and Prevention's Website at <http://www.cdc.gov>

These products were distributed in Bass Pro Shops® stores nationwide.

None of the Uncle Buck's® products listed above have been linked to any illnesses. No other Uncle Buck's products are being recalled or are affected by this recall.

Bass Pro Shops® requests that customers who have purchased these products destroy them or return them to the nearest Bass Pro Shops® store for a full refund. If Bass Pro Shops® customers are unsure if they have the recalled product, they are requested to contact Larry Whiteley at (417) 873-5022 Mon-Fri 8:00 AM-5:00 PM or at (417) 689-1118 Evenings and Weekends.
